Procedures for Requesting Blocking Inappropriate Website

Elizabeth City-Pasquotank Public Schools has implemented technology protection measures to block or filter obscene, pornographic, and other material harmful to minors. These precautions are not 100% foolproof and cannot totally eliminate the potential for abuse. An industrious user may discover controversial information. Procedures have been implemented to allow for rapid response to block specific inappropriate sites at school request.

It is important that school personnel carefully consider all requests to block sites to insure they are harmful to minors or significantly impact effective educational goals of the school. Excessive censorship is discouraged.

To request a website block, send an email to helpdesk@ecpps.k12.nc.us

Name of staff member initiating request for block.

School (or Support Department).

Identify the specific URL for the websites. (ex: www.badsite.com)

Describe the reason for requesting the block.

Name of School Media Coordinator/School Administrator reviewing, approving, and forwarding request.

Implemented: June 24, 2002

Elizabeth City-Pasquotank Public Schools, Elizabeth City, NC 27909
