

School: _____

Comprehensive Needs Assessment

School Reform

A) Describe demographics and characteristics of school community.

B) Stakeholder's Perspective (In School Survey Data) * School will be required to conduct two in house surveys per year that will include feedback from students, parents, and staff. (Use same questions for both surveys)

C) Describe the process used for data collection and analysis including the participation and sharing with appropriate stakeholders (including parents).

School: _____

Summary Analysis:

Review school data and consider a variety of perspectives including overall school/student performance, sub-group performance, attendance, teacher satisfaction (TWC), instructional practices and student learning (from walk-throughs/observations).
